. . . dedication

*Peace . . . poems are composed praising it,
songs are sung advocating it, marches are staged
pleading for it, and prayers are offered in hopes
of finding it. Peace is that intangible ideal that we
try to make visible through understanding.
Without it, we cannot hope to have a future.*

*We of the 1968 HALCYON staff wish to dedicate our
first publication, just as we should all dedicate our lives,
to the quest for peace through understanding . . .
understanding of others stemmed through the
understanding of ourselves. Only by first discovering
who we are can we then understand who others are.*

*If dedication to understanding is affirmed,
the serenity of peace can be manifested.*

 Mrs. Palmer keeps the records on the car. As she thumbed through requisition slips and other data in a fat folder, I began to think that this poor vehicle was just a registration number and not a thing at all.

Harper Go To

Three Harper students were involved in a fight that allegedly occurred in a lounge at Harper College. The judge ruled that the students retained a spotless record. The fight occurred on March 27, all charges were dropped.

The three Harper students involved were Gil Van Raalte, Brian Stevens, and Carl Stevens.

Dr. James Harper, students, said each student was in court action when the college would send a warning to the students.

HALCYON '68

Part of college is forming traditions, and the 1968 HALCYON staff proceeded to establish a format that will hold for coming years.

Although small in number, the staff put forth a tremendous effort to make Harper College's first year-book one to be proud of.

At the beginning of the school year, the staff sponsored a campaign for art and literature to promote interest.

Editor-in-chief Judy Ressler and managing editor Pat Tenerowicz performed the composing—from organizing schedules, to writing copy, to laying out pages.

College years are memorable, and the 1968 HALCYON will preserve these memories for the students.

Student Government

The Interim Student Assembly of Harper College was formed last spring. From the time of its origin, this government has begun to establish policies and traditions that will remain with future governments at the college.

The government wrote a constitution, a set of procedures that will be followed by future governments. The name Student Senate of Harper College, or the SSHC, was officially designated and adopted.

The SSHC has a long way to travel before perfection is reached; however, the progress made during 1967-68 will be valuable in achieving its goals.
